## Building a New Economy

One of the priority objectives of FairCoop is to build a new global economic system based on cooperation, ethics, solidarity and justice in our economic relations.

network of networks

Fair Coop

Sensorica

Mutual Aid Networks

Communecter

How to connect all of those systems and networks into the same cooperative economic system?

They can all use the same vocabulary.

A vocabulary for distributed economic networks.

Valueflows

- ...is based on the same model as OCP.
- The Kamasi project, creating a new UI for OCP, speaks the Value Flows vocabulary.
- Sensorica can use the same vocabulary.
- Communecter in France is looking at the same vocabulary.
- The Mutual Aid Networks are looking at the same vocabulary.
- The Open App Ecosystem, which the Kamasi project can also belong to, will include the same vocabulary.

Parts of a global cooperative economic system?
